ABL GROUP

GUIDELINES ON THE SALARIES AND OTHER REMUNERATION TO EXECUTIVE PERSONNEL

These guidelines were stipulated by the Board of Directors of ABL Group ASA (the “ABL Group”, “ABL” and “Company”) in accordance with Section 6-16 (a) of the Norwegian Public Limited Liability Companies Act and are used to determine the remuneration policy.

1. Introduction and context

The guidelines apply to the Executive Management of the ABL Group and describe the principles for their remuneration and the decision-making process for remuneration to these leading persons, outlining the total remuneration by components.

The purpose of the policy is to ensure that ABL Group delivers good results through an executive management team with high motivation and strong loyalty to the Company.

In a labour market characterised by strong competition for the most qualified employees and due to the global scope of its business, ABL Group has to compete on the international market when considering salary levels for executive management. In order to be one of the leading participants within its line of business, ABL Group is dependent on offering appropriate remuneration to allow the Company to be able to recruit and keep skilled managers. In order to ensure the best possible leadership to achieve the Group’s business strategy, long-term interests and financial sustainability, the Board believes the Company should offer a satisfactory salary, which is internationally competitive, combined with a variable pay bonus scheme and share related arrangements.

Summary of changes in the guidelines

These guidelines replace the guidelines approved by the Annual General Meeting in 2023, with changes primarily on variable pay through the introduction of Long Term Incentive and Short Term Incentive Schemes.

Governance

The Board has the overall responsibility for the remuneration policy. The Remuneration Committee is responsible for reviewing and proposing changes to the remuneration policy. The Remuneration Committee reviews the policy at least once a year and, if applicable, proposes amendments to the Board for adoption by the Annual General Meeting. The Annual General Meeting finally approves the remuneration policy.

2. Remuneration to the Executive Management team

a) Main principles

ABL Group’s guidelines for financial remuneration are adapted to the Company’s business strategy. In order to best safeguard the interests of customers, employees and shareholders, ABL Group considers that the correct course of action is a combination of fixed salary, variable bonus and share related remuneration. The salaries of the Executive Management team are determined based on experience, the position’s responsibilities and level of complexity. Comparisons with equivalent roles in other companies are made in order to ensure that the salary level is competitive.

ABL Group’s overarching guidelines for financial remuneration for all employees are considered and approved by the Group’s Board of Directors each year. Remuneration is principally based on a fixed salary and the salary level for the

different roles is based on assessments of the requirements for the various roles in terms of formal qualifications, experience, responsibility, and complexity. The salary levels for all roles in the Group, including the Group's Executive Management team, may from time to time be calibrated with compensation for equivalent positions in the market. Any difference in remuneration between the Group's Executive Management and other employees is primarily due to the significant responsibility held by Executive Management and the complexity that comes with these international roles. Remuneration of other roles in the Group is also assessed in relation to responsibility, complexity and market conditions, based on a reputable and systematic system for evaluation. There are employees in the group with salaries higher than some members of the Executive Management team. It is the responsibility of the individual managers to recommend financial remuneration for their employees within the framework of the principles and guidelines adopted by the Board of Directors and the Company's management.

Salary revision will be considered each year according to limitations approved by the Board of Directors. The Company's strategy and objectives are of importance to the assessment of each individual's total remuneration. The goals each area of the Group have set for sustainability will be an important part of the overall salary assessment.

b) Decision-making process

The Remuneration Committee currently consists of three members of the Board of Directors. The Remuneration Committee makes an assessment and provides a suggestion to the Board of Directors, which finally determines and approves the remuneration to the CEO. The CEO determines the compensation for other members of Executive Management team. The Remuneration Committee acts as an advisory body to the CEO with regard to remuneration schemes to executive personnel. The Remuneration Committee is responsible for keeping itself informed about and proposing guidelines for the determination of remuneration of executive employees in the Group, including these guidelines, which are then adopted by the Board.

c) Remuneration components

The remuneration to the Executive Management team of ABL Group consists of the following elements:

Fixed elements

- Fixed salary which is regulated annually.
- Executive management may be offered the limited benefits in kind that are common for comparable positions, e.g. free telephone service, home PC, free broadband service, newspapers. There are no special restrictions on the type of other benefits that can be agreed on.
- Most of the Executive Management team are part of the same pension plans as the rest of the company, and there are no specific pension or insurance schemes for Executive Management. The Group arranges and pays for group pension schemes in accordance with the pension legislation in force locally at any given time. These are generally company/employee joint contribution schemes in most regions. Pension plans shall in principle be on the same basis for Executive Management as is generally agreed for other employees. All employees are also enrolled in group insurance schemes that provide cover in the event of illness, disability, or death.

Variable pay – STIP and LTIP

Through 2023 the Board of Directors has considered the overall structure of both short term and long term incentives for the Group to ensure they are competitive within the international market given the growth of the Company in the past few years. The Company engaged an advisor (Deloitte) specifically for the purpose of establishing competitive structures. As a result, the Company has introduced a Long Term and Short Term employee incentive programmes (LTIP and STIP) in line with the stated aims of the Remuneration Guidelines approved at the 2023 AGM and as further agreed by the Board of Directors.

As part of the LTIP, the Company has issued awards of Performance Share Units (PSUs) to certain key employees of the Company. The PSUs are granted to members of the executive and senior leadership teams (each a PSU Holder) and gives the PSU Holder the right to receive shares in the Company depending on the achievement of certain performance criteria and subject to continued employment on the relevant settlement dates. The conversion of PSUs to shares is determined by performance against two target metrics: (i) group adjusted EBIT (ii) group return on capital employed. Each of the performance metrics is measured for a calendar year. The Company will notify each PSU Holder of the total achieved performance and the number of shares earned by the PSU Holder after announcement of the Q4 results for the relevant calendar year. The shares will be delivered to the PSU Holder the year after (50%) and the year thereafter (50%), provided the PSU Holder remains employed with ABL Group through the settlement dates as well as no breach of employment conditions and/or ABL Group Code of Conduct. Settlement of PSUs will be done through use of treasury shares or by issuance of new shares, as decided by the Board of Directors.

A total of 1,100,000 shares are to be designated for settlement of the 2024 PSUs which takes into account the maximum achievement under the scheme. Any shares not utilised to settle the 2024 scheme will be used in subsequent years.

The Company has also introduced an STIP for all employees in the group to replace the previous bonus scheme. All employees will be awarded a bonus opportunity subject to achievement of certain performance conditions. Performance metrics for the STIP plan vary dependent on the business segment to which an employee is attached, but in general performance metrics are based upon (i) group adjusted EBIT (ii) business segment adjusted EBIT (iii) business segment AR/UBR and (iv) a business segment specific metric. The performance under the STIP for a financial year will be considered by the Board after announcement of the Q4 results for such calendar year. Payments will be made in cash and/or shares as decided by the Board of Directors.

Awards under the LTIP and STIP are intended to be annual, subject to performance conditions and targets to be updated before each award.

Share option schemes

Under previous incentive schemes (now replaced by the STIP and LTIP schemes), the Company has issued a total of 20,505,000 share options (LTIP2019 (8,505,000), LTIP 2020 (11,000,000) and LTIP 2022 (1,000,000)). At the end of 2023, the number of outstanding share options was 10,023,000.

The options are issued at-the-money with a 3-year vesting period subject to inter alia continued employment and investment obligations (purchase of shares) for part of the gain on options, including lock-up on the shares as follows:

If a Participant's total gain on the Exercise Date is above NOK 60,000, the Participant must use minimum 25% of the gain to purchase new shares in the Company, unless the Participant already holds shares equivalent to at least that amount, and he/she shall not sell or otherwise dispose of the shares bought or held to comply with the minimum investment (the "Lock-Up Shares") until the following dates:

- a) for 1/3 of the Lock-Up Shares, rounded up, until the first anniversary of the Exercise Date;
- b) for 1/3 of the Lock-Up Shares, rounded up, until the second anniversary of the Exercise Date;
- c) for the remaining Lock-Up Shares, until the third anniversary of the Exercise Date.

d) The duration of agreements and schemes for Executive Management

The majority of the Group's Executive Management team has 3 to 6 month period of notice. In accordance with the authority granted to the Board to vary the guidelines on individual cases, one executive has a notice period providing certainty of employment through to the end of 2027; this arrangement was required to secure his services within the Group remuneration structures.

The Group has a retirement age according to local legislation varying from 65 to 70 years. There are no fixed schemes for early retirement pensions.

There are no other severance pay schemes agreed for the Executive Management if their contracts are terminated by the Company.

e) Relative size

The table below presents the relative size of the CEO remuneration components:

	Relative size at minimum	Relative size at maximum
Fixed elements	100%	74%
Annual Salary	69%	52%
Pension	6%	4%
Other	25%	18%
Variable elements	0%	26%
- STIP	0%	13%
- LTIP	0%	13%

3. Deviations from the policy

The Board of Directors may deviate from the guidelines in individual cases provided it is deemed necessary due to special circumstances to satisfy the long-term interests and strategy of the Company, or to ensure financial viability of the Company. Any such deviation must be described in the remuneration report following the deviation.

4. Future Developments

Other than embedding the new LTIP and STIP arrangements and maintaining competitive positioning there are no plans for material future developments at this time.

5. Approval and publication

These guidelines shall be presented to the General Meeting for consideration and approval in the event of any significant changes and at least every fourth year. However, the Board may seek approval for a new policy at an earlier point.

The policy is published and available on the Company's website.

ABL Group

Remuneration report for salary and other remuneration
to senior executives for the financial year 2023

- **Introduction**

2023 has been yet another eventful year for ABL Group ASA (the “Company”) and its subsidiaries. On 18 April 2023, the Company acquired 100% of the shares in the multi-disciplinary engineering consultancy and software company AGR AS (“AGR”). The acquisition will bolster ABL Group’s offering within well and reservoir consultancy, enhance the group’s position in supporting operators’ digitalisation and decarbonisation plans, and expand its opex-driven offshore energy exposure. Further, on 23 August 2023, the Company acquired 100% of the shares in DWP Group ApS. DWP is a specialist solutions provider for wind turbine generators (WTG) and the acquisition expands OWC’s, one of ABL Group’s subsidiaries, technical offering in wind turbines and in consultancy at the installation and O&M phases of an offshore wind project. It also provides an opportunity to further grow DWP’s unique approach to WTG optimisation both globally and in the floating offshore wind market. DWP has a track-record of supporting both bottom-fixed and floating wind projects. In 2023, ABL delivered a strong performance, and finished 2023 with a healthy net cash position. Looking ahead, there is a positive outlook for the ABL Group, with confidence for 2024 and beyond.

There have been some changes to the Executive Management team during 2023 as follows

- Stuart Jackson was appointed as new CFO, commencing on 23 January 2023. Mr. Jackson succeeds the former CFO Dean Zuzic, who resigned from his role on 9 August 2022.
- Katherine Phillips was appointed Chief Transformation Officer and joined the Executive management team from 28 August 2023.

In accordance with the resolution at the Annual General Meeting in June 2023, the remuneration of executives during 2023 has been governed by the Guidelines on the salaries and other remuneration to executive personnel (“Remuneration Policy”). All remuneration in 2023 to the Executive Management was in line with the approved Remuneration Policy.

There have been no deviations from the current Remuneration Policy. Moving forward, the policy will be submitted for approval by the general meeting in the event of any significant change and at least every four years.

- **Remuneration to the Executive Management team**

The criteria for remuneration and remuneration of the Executive Management in ABL Group are stated below:

- Remuneration to the executive management shall reflect the experience, the position’s responsibilities and level of complexity.

Regular comparison with equivalent roles in other companies are made to ensure that the salary level is competitive.

Total remuneration to the Executive Management team is a combination of fixed and variable elements. To best safeguard the interest of customers, employees and shareholders, ABL Group considers that the correct course of action is a combination of fixed salary, bonus and share options.

The table below displays the total remuneration to the executive management in 2023 and 2022:

Base salary

Fixed annual salary (adjusted annually).

Other benefits

Other benefits such as telephone, broadband, newspaper, fixed car allowance. Executives, like other employees, are affiliated with the Company's current life and health insurance scheme.

Pension

The Executive Management team is included in the same pension and insurance programs as other employees in the Group.

Shares

Shares owned by the members of the Executive Management as of 31 December for the relevant year.

Variable remuneration

The Company had an Employee Incentive Compensation Plan (“Bonus Plan”) available to the Executive Management and all other full-time employees.

The maximum allowable bonus will be one month’s base salary for all employees, including Executive Management.

The size of the bonus pool is dependent on both regional and group performance.

- Each region must meet the Regional Profitability Target to qualify for allocating bonus to the employees in the region. The minimum Regional Profitability Target for 2023 is
 - 5% EBITA margin after group cost and
 - 10% reduction in working capital days vs. the average working capital days in Q4 2022 for all regions or 80 days whichever is higher
 - The size of the bonus pool for a region is 15% of the EBITA for the region if ABL Group is profitable (ABL Group achieves minimum 5% EBITA margin and 10% reduction in working capital days vs. the average working capital days in Q4 2022 or 80 days whichever is higher). If both thresholds are not met, the bonus pool will be 7.5% of the EBITA.
- The total size of the bonus pool for the group is restricted to 15 % of ABL Group EBITA.
- If the ABL Group is not profitable (EBITA loss), or if operating cash flow is negative, the regions will not be eligible for a bonus.

If a respective region is not achieving the minimum regional profitability target, none of the employees in the region will be eligible for bonus payments. The Board of Directors of ABL Group may however determine on a discretionary basis if regions should pay bonus to certain of their employees for exceptional performance.

The regional bonus pool will be shared among the Management team and the employees. The split of the bonus pool into individual bonus payments is primarily based on the number of eligible employees and their base salaries. For the Executive Management team, the bonus basis for 2023 is 75 % of group performance (average bonus payment in % of base salary in ABL Group) and 25% discretionary based on annual performance review. The performance criteria and the corresponding outcome for the Executive Management team for 2023 and 2022 is stated in the table below:

	Description of the criteria related to the remuneration component	Relative weighing of the performance criteria	Information on Performance Targets		a) Measured performance and b) Actual award outcome
			a) Minimum target/threshold performance and b) Corresponding award	a) Maximum target performance and b) Corresponding award	
2023	- EBITA margin	50%	a) 5% b) 0%	a) 15% b) 100%	a) 100% b) 100%
	- Reduction in working capital days	50%	a) 10% reduction or 80 days whichever is higher b) 0%	a) N/A b) 100%	a) 0% b) 0%
2022	- EBITA margin	50%	a) 5% b) 0%	a) 15% b) 100%	a) 100% b) 100%
	- Reduction in working capital days	50%	a) 10% b) 0%	a) N/A b) 100%	a) 0% b) 0%

Total bonus for the Management team for the financial year 2023 has been calculated at 5.25% of base salary for 2023 and includes employer taxes, national insurance contribution and similar charges.

- **Share based remuneration**

The Group has implemented employee share option plans (Long Term Incentive Plan) for 2019, 2020 and 2022 (“LTIP 2019”, “LTIP 2020” and “LTIP 2022”), where the Company has originally granted 8,505,000, 11,000,000 and 1,000,000 share options, respectively.

Each option gives the holder the right to acquire one share in ABL Group ASA. The options are granted without consideration. Subject to certain conditions, the option holders are obligated to reinvest 25 percent of the pre-tax net gain on the options in ABL Group ASA shares, and to hold these shares for up to three years following exercise. One third of these shares will be released from this obligation each year following exercise.

The Board of Directors may choose to settle the options by way of cash settlement in lieu of issuing new shares. Exercise terms may be reasonably adjusted by the Board of Directors in the event of dividend payments, share splits or certain other events relating to the equity share capital of the Company.

At the end of 2023, the number of outstanding share options was 10,023,000 of which 9,175,000 have vested and were available to be exercised during a period that ended 8 January 2024. The Board has decided to offer a one-year extension to owners of the vested options and by close of the exercise period early January 2024 holders of 5,047,500 options decided to extend. Hence 4,127,500 options were converted to shares.

The Executive Management team were not granted any new options during the reported financial year. The table below is stating information relating to options owned and vested by the Executive Management team but not exercised per year end 2023:
